

## CAP exhibits children's art

AN exhibition of children's art organised by the Community Arts Project (CAP) will be held at the Khayelitsha Shawco Centre at noon on May 24.

There will be a short cultural programme which includes performances of poetry, music and dance.

The natural creativity of the child has been the focus of CAP's Children's Art Project in which children have been given the opportunity to explore music, art, dance and drama.

An exciting feature of the exhibition will be products of the workshops for children run by Helen Sebidi.

The works exhibited were produced by children attending classes at CAP in Wood-

stock, Mfesane (Crossroads), and Lehlolonola (Guguletu), where art workshops are run by CAP staff.
